- Insulated and 100% individually tested Zyklop ratchet for safe working up to 1,000 volts
- Fine toothing with 80 teeth for a short return angle of only 4.5°
- Extremely slim design with a soft, ergonomic grip zone for easy work even in very confined spaces
- Safe socket lock via push button, convenient direction change thanks to the reversing lever
- Plastic coating protects surfaces from damage

Zyklop ratchet VDE with switch lever with the unmistakable Wera design. Slim design for working even in very confined spaces. Due to the finely spaced 80 teeth, a low return angle of only 4.5° is possible. With a reversing lever for a comfortable change of direction. With secure socket locking function by push button. Individually tested tool as per IEC 60900 at 10,000V for safe working at the approved voltage of 1,000V.

Individually tested

Zyklop ratchet and accessories for electricians

Safe working at voltages up to 1,000 V is guaranteed as Zyklop tools for electricians are individually tested at 10,000 V as per IEC 60900.

Fine-tooth design

The Zyklop VDE ratchet allows a short return angle of only 4.5 ° thanks to its 80 teeth.

For small spaces

The extremely slim design of the Zyklop VDE ratchet makes it easy to work, even in confined spaces.

Ball lock

The ball lock ensures sockets and accessories fit securely, providing increased safety during operation. A short press on the release button allows the tool to be changed quickly.

Switch lever

Switch lever for convenient change of direction.
