

# UNIVERSAL ISOLATED HEAD TRANSMITTER THU301-I

The Tekon Electronics Universal Temperature In Head Transmitters are specifically designed to meet the most rigorous requirements of operation in the industrial process environments.

The THU301-I is an ultra-flexible universal temperature transmitter which accepts the most commonly used temperature sensors (Resistance thermometers with 2, 3 or 4-wire system and Thermocouples) and generates a linear 4 to 20mA current signal with high stability as output.
