

iE110-P05

Wire draw mechanism for rope pull switches

WIRE DRAW MECHANISM

SICK
Sensor Intelligence.

Ordering information

Type	part no.
iE110-P05	5311136

Detailed technical data

Features

Description	Rope accessory set, rope length 5 m
Items supplied	2 cable clamps, 1 tension roller, 3 eyebolts, 5 m rope, 1 Allen wrench

Certificates

RoHS manufacturer declaration	✓

This technical drawing illustrates a mechanical assembly, possibly a door hinge or latch mechanism. The central component is a long, dark shaft or rod. On the left end, there is a handle or lever mechanism attached to a rectangular plate. Moving right along the shaft, there is a central locking mechanism, which appears to be a small, rectangular block with a circular opening. Further right, there are two circular components, possibly washers or spacers, followed by a spring-loaded pin or bolt. The pin is coiled into a spring and is shown in a retracted position, with a small rectangular plate visible at the far right end. The entire assembly is shown in a perspective view, with two rectangular plates (likely door or frame plates) visible at the ends.

SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
